

# Copy 3-2-1 chart into your ISN

What are 3 things you learned?

1.

2.

3.

What are 2 things you still have questions about?

1.

2.

What is 1 real world example of each type of heat transfer?

- Conduction-
- Convection-
- Radiation-

# “How to melt a chocolate bunny” Video

As you are watching the short video clip,  
observe each way that the bunny is melted.

How are they different?

Are there any similarities?
